

# ManageFD

## Steps for creating your first Fixed Deposit

1. Create Bank.

2. Create Company where you have Fixed Deposits. If you have deposited in Bank then we have to create Bank information as Company also.

e.g. If you have Bank account in IDBI and have Fixed Deposit in IDBI then you will have to create entries in both Bank and Company also.

3. Specify Depositors information.

4. Specify TDS Rate.

5. Create FD. This steps is similar to filling a form and submitting to company.

6. Open FD allows you to specify FD receive number that you received from company. When you opened get the FD receipt. You can change all other information except Company Name. After opening FD, interest for this FD will be calculated.
